The Boreal Shores Art Tour is a free, self-guided driving tour featuring individual artists studios and group artist locations throughout Eastern Manitoba. Divided into three colour-defined regions, the studios and group locations are indicated by coloured dots with stop numbers in them. Group locations are further defined by letters designating each artist at the stop.

The Tour is an adventure and, like any good adventure, presents a mixture of surprises and challenges. The locations are a combination of old and new, public and private spaces. Some are easy to get into  others have stairs . Some have washrooms available  others do not. (Wheelchair accessibility is varied, so please contact ahead for information.) We have tried our best to guide you from place to place with detailed maps and written instructions, as well as road and location signs.

Thanks Janice!

Once something has been around for a few years it seems like it has been always present. Boreal Shores Art tour now falls into that category but in fact it is only 7 years old. The reason it exists comes down to one person; Janice Charko. The basic idea may have grown out of visiting some of the other art tours around Manitoba and discussions with Pinawa Art Gallery artists such as Arlene Bohn and Jan Claude.

In any case, Janice decided it would be a good idea to organize a tour in South Eastern Manitoba and, as they say, the rest is history. She had a lot of energy, ability to focus and people skills from a successful career in the real (not art) world and pulled together a team, recruited artists, organized venues and the first tour happened. In the following years the tour continued to happen, larger and better organized each year until interrupted by COVID.

Sometime during the pandemic Janice told us she had met a roadblock she could not overcome and would need to step back from her responsibilities. Regardless of this obstacle, she led the organization of a tour in 2022 and recruited volunteers who would carry on her vision. Her dedication to the tour has included a very generous financial gift to allow BSAT to hire a coordinator for 2023 to support the organization and help deliver a successful tour.

*In 2023, the Tour has been planned and delivered by volunteer board of directors, supported by a paid coordinator. By splitting up the work, the responsibilities of each individual are more manageable and involving more volunteers means the tour will become more sustainable. The 2023 tour in its new, sustainable form is the legacy of the determination, persistence, and hard work of Janice Charko. The Directors, volunteers, artists, as well as the entire artistic community wish to extend our heartfelt appreciation to her for her work. It's the reason the tour exists – **thanks Janice!***
